

Updated Stage 3 Drought Contingency Requirements

Effective 7/27/2022 Wickson Creek SUD implements the following updates to Stage 3 of its Drought Contingency Plan. Stage 3 remains in effect until further notice.

Please adhere to the following updated Mandatory Stage 3 Water Restrictions:

Watering of lawns with irrigation systems or open hose or hose-end sprinklers is PROHIBITED.

Watering of lawns, trees, shrubs, flower beds, house foundations, and filling of pools are ALLOWED with only handheld hoses, buckets, tree watering bags, or drip irrigation. There are no longer any day or time restrictions for handheld watering.

Violators may be issued daily citations and fines.

Continue to check www.wicksoncreek.com for updated information on Drought Contingency Plan changes, and information on Wickson Creek SUD's previous and future infrastructure investments.

We request customers continue to reduce water consumption where possible. Wickson Creek SUD continues to make every effort to keep all customers supplied with water for fire protection, drinking, and sanitation.
